We are looking for an enthusiastic pharmacist with a range of pharmaceutical knowledge to join our small team of 3 pharmacists and supporting technical team. Gilbert Bain hospital is a very remote general hospital of 60 beds covering acute medical and surgical admissions, as well as maternity, a wide range of outpatient clinics with visiting specialists and a small renal unit.

During the period that you will work with us we expect to move from paper based prescribing to electronic prescribing and medicines administration. You will be fully part of this exciting development working with our medical and nursing teams to help to embed this new way of working, headed up by our HEPMA pharmacist. You will be expected to take part in regular ward rounds in both medicine and surgery providing advice on medicines and their uses, and ensuring appropriate pharmaceutical care for each patient.

This contract is for a fixed term of 6 months. The reason for the fixed term contract is maternity cover. If you wish to apply for this post as a secondment opportunity, you will need to discuss with your line manager before submitting an application.
